

# Why IGE ?

## About

InterGlobal Exhibits (IGE) is a multiple award-winning company that specialized in design and fabrication of trade show exhibits and corporate events in the U.S. and around the globe. No matter how many markets your exhibit program involves, you need to make sure that it stays in budget, on schedule and consistent with your brand. You need to please your internal team and attract your target audience. And, most importantly, you need a vendor who can help you do all of this and make it as smooth as possible. IGE is a truly one-stop solution, where all projects are delivered on a turnkey basis.

## Award-Winning Design

We design to impress. We love to see our clients get “Best in Show” awards for their exhibits, all while generating traffic and buzz on the show floor. For us, each tradeshow is the Oscars and you are the star. With our boutique approach to design, fabrication and delivery of each project, we take time to understand your brand and its philosophy. This ensures that your exhibit captures the authentic features of your company and becomes its true portrait. And using the best materials and technology helps to make each experience memorable, unique and meaningful.

## Value and Customer Satisfaction

Leaner marketing budgets equal smarter design and more efficient fabrication. This means delivering a creative solution that achieves the same or better impact as a larger footprint, and meets your marketing goals. We know there's no room for error, and we make sure there are no hidden costs. We also know that client's directives can change, and unlike other firms, we can adjust quickly to accommodate new ideas and strategies. We believe in customer satisfaction, so everything we do is towards that goal. We believe that if there is no customer satisfaction with what we do there is no business at all.

## Global Reach, Capabilities and Support

InterGlobal Exhibits is privately owned by Gino Pellegrini, a designer and entrepreneur with many international design awards, who started the company in the early 90's. IGE is a U.S.- based company, we support our client's programs domestically, internationally or both. Our base of operations is in Englewood, Colorado where we have our main design studio, full fabrication facilities, storage, logistics and management.

We recognize that designing and manufacturing truly exceptional environments takes great people. Whether it's design, management or engineering, accounting or manufacturing, we believe that every position in every area is highly important to our company's success, and the success of our clients.

Besides our expertise working in the U.S., we also coordinate producing exhibits and events in every major international market, including Europe, South America, Asia and the Middle East. Delivering a global program can be challenging, but we have more than 15 years of experience working on a global platform. From the design of your exhibit that captures the essence of your brand, to ensuring global brand consistency, to installation and dismantle, to storage and management of your program it only takes one contract. You will only need to speak one language to your designated project manager and pay in one currency, no matter where in the world your program takes you.

Give us a call and allow one of our account executives to talk and discuss about your trade show program or next corporate event in the US or anywhere else in the world.
